Description

The SWS-CUT1006 gloves offer excellent comfort, fit, dexterity and grip. Its TPR back and fingers offer protection against impacts by absorbing the energy of vibrations. The sandy nitrile coating provides excellent abrasion resistance. The gloves are made with HPPE / steel thread / spandex / polyester, the needle used to embroider this fabric is 13 gauge. Gloves certified for mechanical risks, EN 388:2016+A1:2018 and good cut resistance, ISO E cut level and P impact certification.

Activity sectors

	General use		Industrial maintenance		Transport		Construction
	Building sites		Automotive		Forest and paper industry		Machinery and equipment
	Oil and gas		Mining		Glass work		

Maintenance

Check the product before, during and after use, if you see any damage, the product must be replaced. Store the product in a ventilated, cool, dry place away from direct sunlight. Gloves must not be washed. When washed they can

SWS-CUT1006

lose their integrity, thus reducing their properties and their lifetime.

Pictogram explanation

	EN388 certified gloves		Gloves with good hydrocarbon repellency
	Gloves with cut resistance level E		Abrasion resistant gloves
	Gloves with impact protection (P)		Gloves with material that allows good ventilation
	Glove with TPR on the back and fingers		Hand-fitting gloves
