+ Description

SWS-FLEX2001 gloves are suitable for high-precision work. The nitrile coating provides high flexibility, dexterity and grip. The lining is made of polyester, with an ergonomic design to reduce hand fatigue. The nitrile coating provides good abrasion resistance. This glove is certified for mechanical risks EN388:2016+A1:2018.

+ Activity Sectors

+ Maintenance

Check the product before, during and after use, if you see any damage, the product must be replaced. Store the product in a ventilated, cool, dry place away from direct sunlight. Gloves must not be washed. When washed they can lose their integrity, thus reducing their properties and their lifetime.
