## Description

The SWS-GOG1303 adjustable goggles have been developed for general use in industry, primarily to protect the wearer from eye injuries. Its construction with adjustable temples allows for a perfect fit for the wearer, its rubber nose pad provides comfort and a better fit, while its lenses protect the wearer against high-speed particles.

## Activity sectors

 General use

 Construction

 Building sites

 Glass work

 Light industry

 Agriculture and gardening

 Forest and paper industry

 Locksmiths

 DIY & crafts

## Maintenance

Clean after each use in order to prolong its useful life. Sanitize the glasses using running water or neutral cleaning liquids. Dry cleaning is not recommended. Do not use paints, solvents, chemicals, adhesives, fuels or similar substances on these glasses. Impact resistance and other protective properties can be compromised by these substances. The loss of these protective properties may not be apparent or readily detectable by the user. After each use, disinfection must be carried out and agents harmful to health must not be used.
