## + Description

The SWS-GRIP3001 gloves with interlock cotton lining and yellow nitrile coating offer high comfort and good abrasion resistance, and thanks to their uncoated back they offer good breathability. The nitrile coating provides a good grip and thanks to its cotton lining they are ideal for a wide range of environments. This glove is certified for mechanical risks EN388:2016+A1:2018.

## + Activity Sectors

General Use

Transport

Logistics and Warehousing

Construction

Building Sites

Agriculture and Gardening

Automotive

Machinery and Equipment

## + Maintenance

Check the product before, during and after use, if you see any damage, the product must be replaced. Store the product in a ventilated, cool, dry place away from direct sunlight. Gloves must not be washed. When washed they can lose their integrity, thus reducing their properties and their lifetime.

**+ Pictogram Explanation**

	EN388 certified gloves		Abrasion resistant gloves
	Gloves with high dexterity		Gloves with material that allows good ventilation
