+ Description

The SWS-GRIP3004 gloves with polyester lining offer high comfort and dexterity. Their sandy latex coating on the palm and fingers provides good grip and their smooth latex coating on the back provides excellent durability. The gloves are made with polyester thread and the needle used to embroider this fabric is 15 gauge. This glove is certified for mechanical hazards EN388:2016+A1:2018.

Sandy Latex Gloves

SWS-GRIP3004

+ Maintenance

Check the product before, during and after use, if you see any damage, the product must be replaced. Store the product in a ventilated, cool, dry place away from direct sunlight. Gloves must not be washed. When washed they can lose their integrity, thus reducing their properties and their lifetime.
