### + Description

The SWS-LT4008 gloves are ideal for welders and locksmiths. Their natural grain leather glove provides high dexterity while their split leather cuff offers high protection. Thanks to the quality of the materials they are made of, these gloves offer high dexterity, with an ergonomic design to reduce hand fatigue. Their size also provides protection for the wearer's wrist and forearm. These gloves are certified for mechanical risks EN388:2016+A1:2018, for thermal risks EN407:2020 and for risks associated with welding work EN12477:2001+A1:2005.

# Mixed Leather/Crute Welding Gloves

## SWS-LT4008

### + Maintenance

Check the product before, during and after use, if you see any damage, the product must be replaced. Store the product in a ventilated, cool, dry place away from direct sunlight. Gloves must not be washed. When washed they can lose their integrity, thus reducing their properties and their lifetime.

### + Pictogram Explanation

	EN388 certified gloves		Gloves made of leather
	EN407 certified gloves		Gloves with slip resistance
	EN12477 certified gloves (Type A&B)		Abrasion resistant gloves
	Glove with spark protection
